## Own the night.

Speed belongs to the night. It's in the shooting star streaking through the sky. In the wildebeests racing the night. In a majestic lion chasing its prey in pitch dark. In the night owl plunging through the air, a blur to the naked eye. In the chuckle of a hyena speeding through a silent jungle.

But in all the beasts that are known to dominate the night, there's nothing that contests the might of the new GTI. 192 PS of sheer power, that goes from 0 to 100 km/h in a mere 7.2 seconds\*. Speed chasers, your ride awaits.

\*Internal Test Data.

Experience the speed of the night at 233 kmph\*.

### Full LED Headlamps with DRL and Red Inserts

Good taste doesn't need to be flaunted. It speaks for itself. The LED Headlamps with DRL and striking red Inserts demonstrate just that.

### Front Fog Lamps with Cornering Lights

The GTI isn't known as the beast of the night for nothing. The Front Fog Lights featuring static cornering function, make night-time driving an absolute pleasure.

### Front Bumper with signature GTI Honeycomb Grill

The GTI's appearance mirrors its speed. Thanks to its characteristic front design featuring the distinctive honeycomb front air intake, red radiator grille louvre and stylish side skirts. The perfect pre-requisites for making a statement.

### Dual Chrome Exhaust Pipes

The Dual Chrome Exhaust Pipes lend the GTI a dynamic look and embody its racing DNA. Needless to say, every minute detail reveals its drive to move.

### Electrically-adjustable Side Mirrors with Turn Indicators

Every inch of the GTI is tuned to your whims and wishes. Such as the Electrically-adjustable Side Mirrors with sleek new turn indicators, that obey your slightest touch. After all, it's the small things that turn a GTI into your GTI.

### Heat-insulating Glass

Green Heat-insulating Glass on the rear and side windows, helps you keep your cool no matter what the weather.

## Steering Wheel

The GTI simply takes luxury to the next level. The leather decorated with red stitching on the multi-function sport steering wheel, with the GTI chrome brace, ensures that every inch of your ride is extraordinary.

## Multimedia Centre Console

The Multimedia Centre Console will get your pulse racing, even before you rev up the engine. Elegant in design and sleek at a touch, the stylish Centre Console adds a dash of entertainment to your daily drive.

## Sport Mode

Sliding down the shifter and pressing the "Sport Mode" button turns the GTI into a far more aggressive beast. Floor the accelerator and dial up the fun factor. In other words, prepare yourself for a night like no other.

## Aluminium Pedal Cluster

Have the world at your feet, quite literally. A gentle touch of the stylish Aluminium Pedal Cluster and you'll have the engines at your command, with a sporty drive to boot.

## The revolutionary 1.8 TSI engine.

Power. It's the one thing a GTI flaunts unabashedly. With an impressive 192 PS performance, it isn't ready to drive, it's born to roar. Going from 0 to 100 kmph is only 7.2 seconds\* and an adrenaline rush away.

What's more, its fuel consumption at 16.47 km/l\*, means lower efficiency and lesser emissions. The result is an engine that makes its powerful presence felt. A heady feeling you'll love to own. Unabashedly, obviously.

## Armed for combat.

Nothing should come in the way of total road domination. Which is why the GTI is equipped with a battery of features for added comfort and safety. The power hatch comes with an Electronic Stabilisation Programme (ESP) that cautiously reduces the loss of traction. The Anti-lock Braking System (ABS) comes standard, ensuring the wheels don't get locked when the brakes are hit hard. Hill Start Assist prevents the car from rolling back when on a slope. 6 Airbags keep you safe. And the Park Distance Control kicks in to make life easier around tight parking spaces.

## 7-speed DSG Transmission

Somewhere between gear 1 and 7, lies a magical story of the night. Get addicted to long drives powered by the moonlight. Learn a thing or two about the stars, courtesy the smooth-shifting Dual-Shift Gearbox (DSG). Nothing exciting ever happened by being ordinary. The science behind the GTI is testament to that.

## 'Salvador' Alloy Wheels

The GTI comes appointed with features crafted for those accustomed to making an entrance. Like the 'Salvador' R16 alloy wheels, that ensure that you arrive and depart in style.

## Colours

A wide range of exterior colours are available for the GTI. A complex painting process with comprehensive corrosion protection ensures a long-lasting high quality paint finish.

1. Reflex Silver
2. Pure White
3. Black
4. Flash Red

## Upholstery

All upholsteries have two things in common – high-quality materials and uncompromising workmanship – protecting your seats against wear and giving you maximum comfort and support.

5. 'Clark' Cloth Seat

## The official car of speed-chasers since 1976.

The acronym GTI, for Gran Turismo Injection, is more than just a seal of quality – it's a trademark and an identity. 40 years after the launch of the first GTI, the name has been synonymous with the Wolfsburg-based car maker's sporting character, powerful engines and maximum performance. It marked the birth of a motoring legend that would prove to be the ultimate high-performance hatch, and one of the most recognised and revered car brands of all time.

Even to look at, the GTI makes no secret of its motor racing genes. Every detail reveals its drive to move. Needless to say, the best way to experience the thrill of a GTI, isn't by reading about it. It's by taking one out for test flight.

## Lifestyle Accessories

Volkswagen GTI models have inspired sports car enthusiasts for more than three and a half decades. Up your style quotient with our exclusive merchandise collection and flaunt your Volkswagen GTI spirit even when you aren't behind the wheel.
